

AluFold **DIRECT**
PROJECTS

Let's Partner Up

Your opportunity to work with the UK's leading aluminium manufacturer as a **supply and fit** partner.

Supply & Fit Partnerships

AluFoldDirect has launched a fantastic new opportunity to partner with the UK's leading manufacturer of aluminium windows, doors and rooflights. We work on a large number of commercial projects supporting solutions for architects, main contractors and developers.

These projects often have a need for supply and fit services, which prompted us to create a partnership opportunity where AluFoldDirect becomes your trusted manufacturing support. You lead as experts in your field on supply and fit, while AluFoldDirect's award-winning design service strengthens tenders to win more work, be more profitable and simplify the process.

Let's talk

How We Work With You

1

Find Opportunities

Our sales teams connect you with potential clients and relevant project bids.

2

Choose the Right System

We review specs and help select aluminium systems that fit your needs.

3

Ensure Efficiency

We run U-value calculations to optimise energy efficiency and meet all thermal requirements.

4

Accurate Estimates

Get detailed cost assessments and tender support from our expert estimators.

5

Ready to Build

Our 75,000sq/ft factory, three automated aluminium lines and £1.2 million worth of stock on-site mean high-quality products are always available.

6

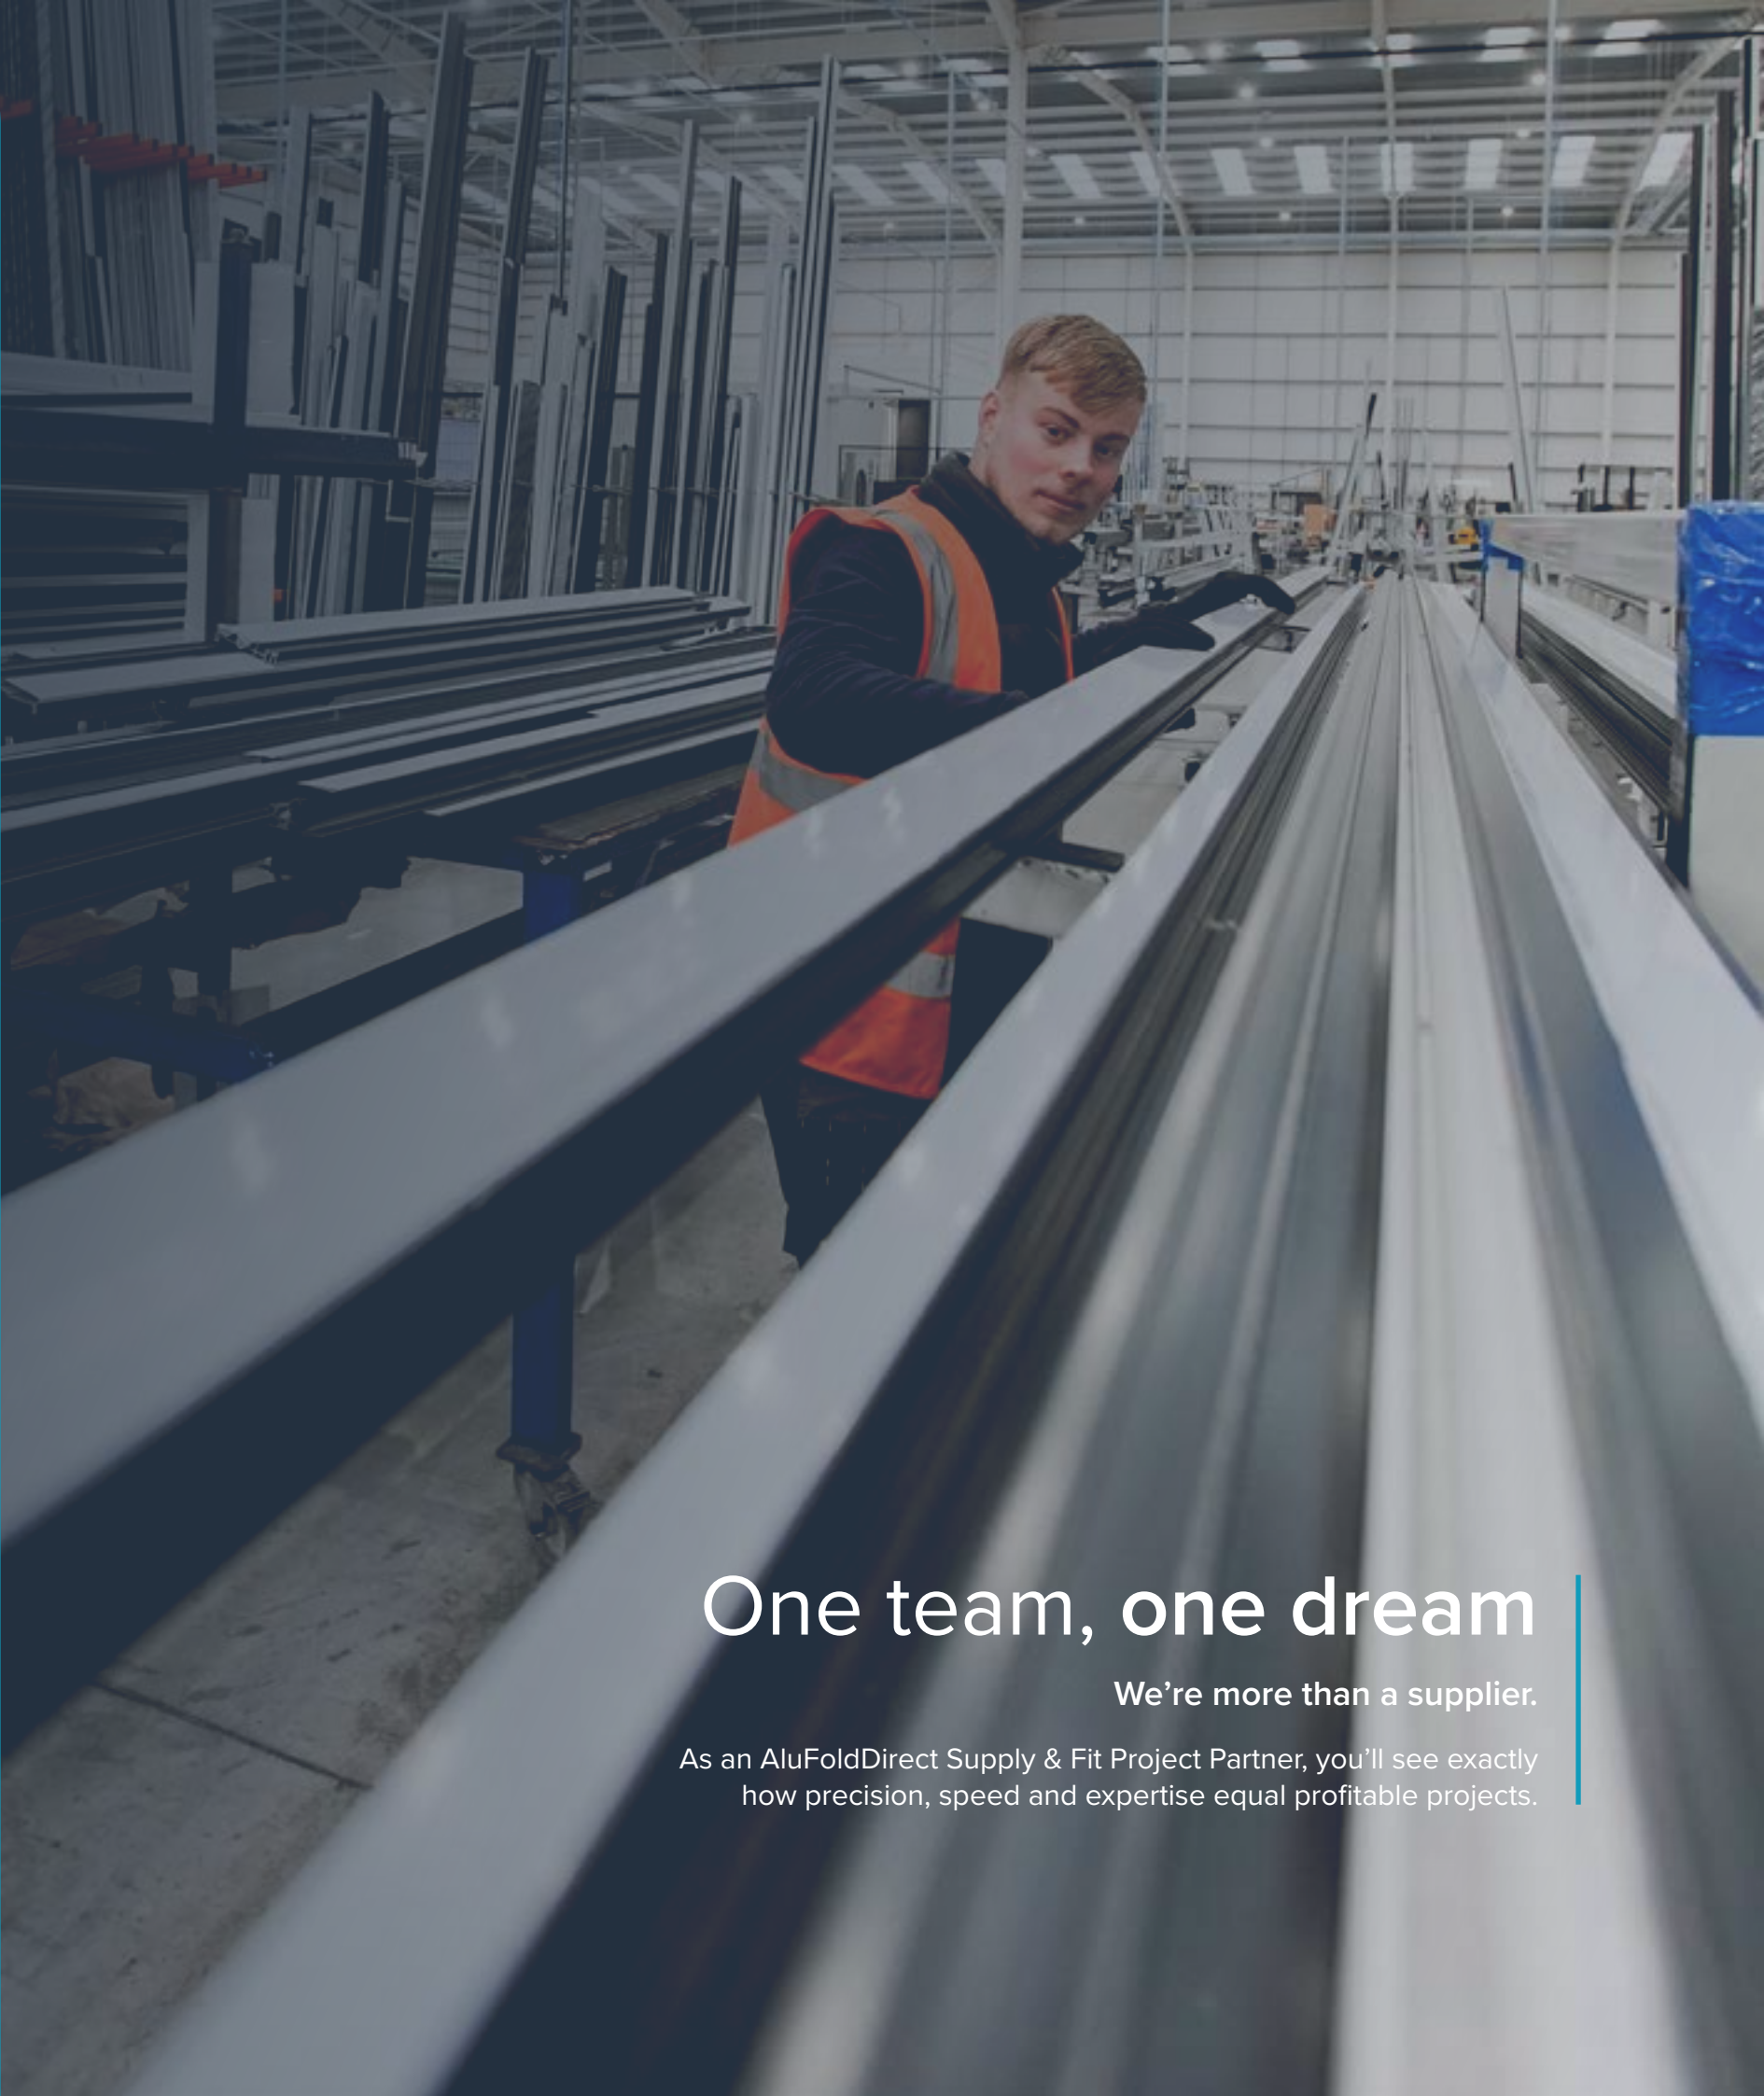

Train Your Team

We offer training to equip your team with the skills needed for smooth installations.

7

Deliver on Time

Count on our UK-wide logistics to deliver your materials – when and where you need them.

One team, one dream

We're more than a supplier.

As an AluFoldDirect Supply & Fit Project Partner, you'll see exactly how precision, speed and expertise equal profitable projects.

Cutting-edge technology

Our 75,000sq/ft factory features state-of-the-art CNC technology, including three automated aluminium lines. By incorporating automation into our manufacturing process, we can achieve unrivalled accuracy, which means less margin for error and more profitable projects.

Design it.
Buy it.
Build it.

It's simple, when you're supported

Partnering with AluFoldDirect means tapping into expert advice, award-winning design and complete confidence in your aluminium projects.

Design it.

We work closely with all project stakeholders, turning their ideas into buildable solutions. Our team helps brainstorm, refine and budget, along with expert guidance on systems selection and compliance with regulations. Our installation partners support with access assessment, design packages and programmes, giving confidence in delivering your project from the start.

- ✓ Product samples and guides
- ✓ System selection
- ✓ Budget considerations
- ✓ Feasibility & specifications

Buy it.

Once the design is locked in, we make sourcing the best aluminium systems simple. We provide accurate, transparent project pricing for our installation partners to complete the supply and install package. Our install partners work with the site teams to ensure timelines are met, programmes are adhered to, and projects are delivered.

- ✓ Budget & regulations
- ✓ Competitive tender
- ✓ Design partner
- ✓ Install selection

Supply & Fit Partner Benefits

Build it.

Our nationwide installation partners have access to training, project management support, dedicated project coordinators and clear communication with the fabrication and logistics teams. It is this cohesive and seamless approach that ensures the project is manufactured, scheduled, delivered and installed – on time and to the highest standard.

- ✓ State-of-the-art manufacturing facility
- ✓ O&M manuals
- ✓ Dedicated support
- ✓ On-site engineers

- 1 Project Engagement**
Collaborate early to identify suitable projects and prepare competitive tender submissions.
- 2 Specification Compliance**
Ensure chosen products comply with building regulations and project specifications.
- 3 Estimation & Bidding**
Access thorough estimating assistance for tender support and success.
- 4 Design & Time**
Design guidance and support for managing lead times effectively to meet project deadlines.
- 5 Installation & Manufacturing Guidance**
Equip your team with essential skills for installation, backed by our manufacturing expertise.
- 6 The Speed You Need**
Count on our streamlined delivery processes to ensure your aluminum is on-site at speed.
- 7 On-Site Support**
Hands-on support during installation for a precise and seamless project.
